The Million Village Challenge

85% of the world's poorest live in approximately a million rural villages, many without the light of Christ. They live in distant places, out of sight and mind. But God has not forgotten them.

Jesus puts himself in their place and calls us to them. When we answer his call, we see in their faces the very face of our Savior.

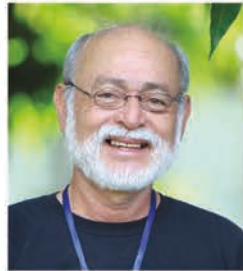

"If you have done it to the least of these, you have done it to me" Matthew 25:40.

Working together. Reaching millions.

DAYO OBAWEYA
CHAIRMAN

DR. HUGO GOMEZ
VICE-CHAIRMAN

GLOBAL CHE NETWORK REPRESENTATIVE COUNCIL

The Representative Council is made up of mission executives and thought leaders elected by the global membership to give voice to the needs in the field. They preserve CHE values, establish policy, and appoint leaders to represent the Network in each country.

THE CHE NETWORK STRUCTURE

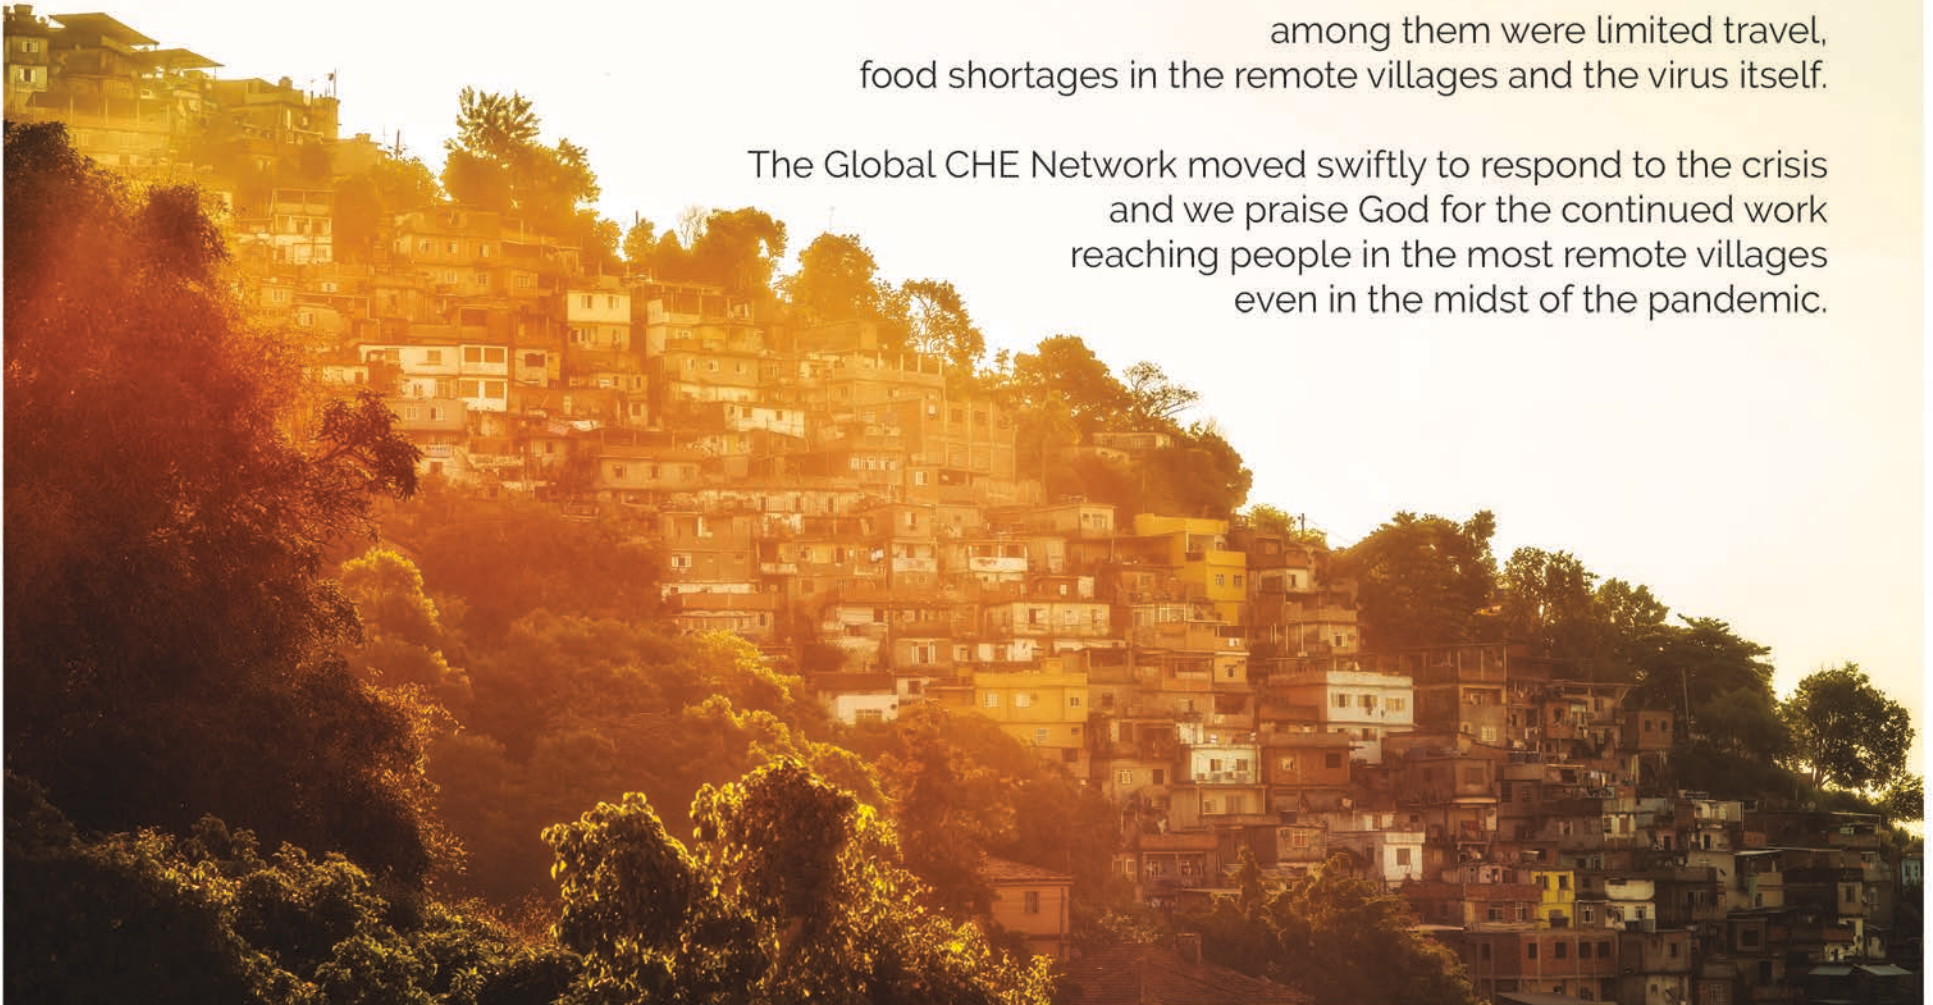

Achievements in 2020

THE YEAR 2020 PRESENTED MANY CHALLENGES
DUE TO THE CORONAVIRUS PANDEMIC . . .

among them were limited travel,
food shortages in the remote villages and the virus itself.

The Global CHE Network moved swiftly to respond to the crisis
and we praise God for the continued work
reaching people in the most remote villages
even in the midst of the pandemic.

- Service Team Member, Dr. Jody Collinge, coordinated efforts with partners around the globe to help villagers in rural poor settings to prepare and prevent an outbreak of COVID-19 in their communities. Lesson plans, picture books, videos, and text messages were created and distributed globally. These materials are still available on our website, www.chenetwork.org.
- As cities locked down, life in the village became harder. Food shortages at the village level have led to the body of Christ caring for those in need. Many CHEs around the world have “masked up” and brought relief to villagers in need, along with prayer and the love of Jesus.
- CHE trainings have always been done in person. The lockdown presented partners around the world with the challenge of training in this new setting. There are now trainings which have been developed in an online format and are in demand. In some areas, radio broadcasts to villages have been developed with great receptivity!

Our Global CHE Network Service Team

TERRY DALRYMPLE

Coordinator, Global CHE Network Service Team

Terry founded the CHE Network in 2008 and serves as Coordinator of the Global CHE Network Service Team.

After years of service in the Philippines as a church planter, Terry pioneered Community Health Evangelism (CHE) for Medical Ambassadors International (MAI) in nine countries in Southeast Asia, working together with partners to establish CHE ministries in more than 400 communities.

Later as International Coordinator at MAI, he guided the expansion of a growing CHE movement with a truly global footprint. He is a capable teacher, trainer, author, and enthusiastic speaker on the subjects of Biblical wholism and transformational development. Terry is married to Jeannie who works beside him in the Global CHE Network office.

JEANNIE DALRYMPLE

Office Administrator/Communications

Jeannie and Terry have had hearts to serve together in missions since the day they met. They served as church planters in the Philippines for ten years, learning two Filipino languages. Upon returning to the states, Jeannie went back to school, receiving a degree in nursing and has been caring for people at the hospital bedside for nearly 20 years.

God has recently opened the door to allow her to use her gifts in communication to work alongside Terry at the GCN office. They have been married for almost 40 years. She is blessed with three grown children, their spouses and four grandchildren—each one brings a smile to her face!

DR. JODY COLLINGE

CHE Curriculum Development Children's CHE Developer

Dr. Jody Collinge has written thousands of CHE lessons and gives oversight to the development of curriculum for the Global CHE Network. A pediatrician by trade, she has heard God's call and served Him in missions from her home base of Zihuatanejo, Mexico. She continues to find her calling to serve children as she developed "Children's CHE", a community health evangelism program being used worldwide. She is an avid researcher and holds a degree in Tropical Medicine.

MICHE' DARNELL

IT/Budgets/Special Events

Miche's job description does not give her due credit. On our team she might be known as the "All-around, amazing, adaptable servant of the Lord". She has a "can do" attitude and gets the job done, whatever task may be put in front of her! Miche' developed a passion for missions work at a young age. She loves seeing God work throughout the world and hearing people's "God stories". Miche' is married to Michael Darnell. They have two teenage children. The family enjoys serving together in various capacities in their community.

Vital Services

PROVIDED TO MEMBERS BY THE GCN SERVICE TEAM

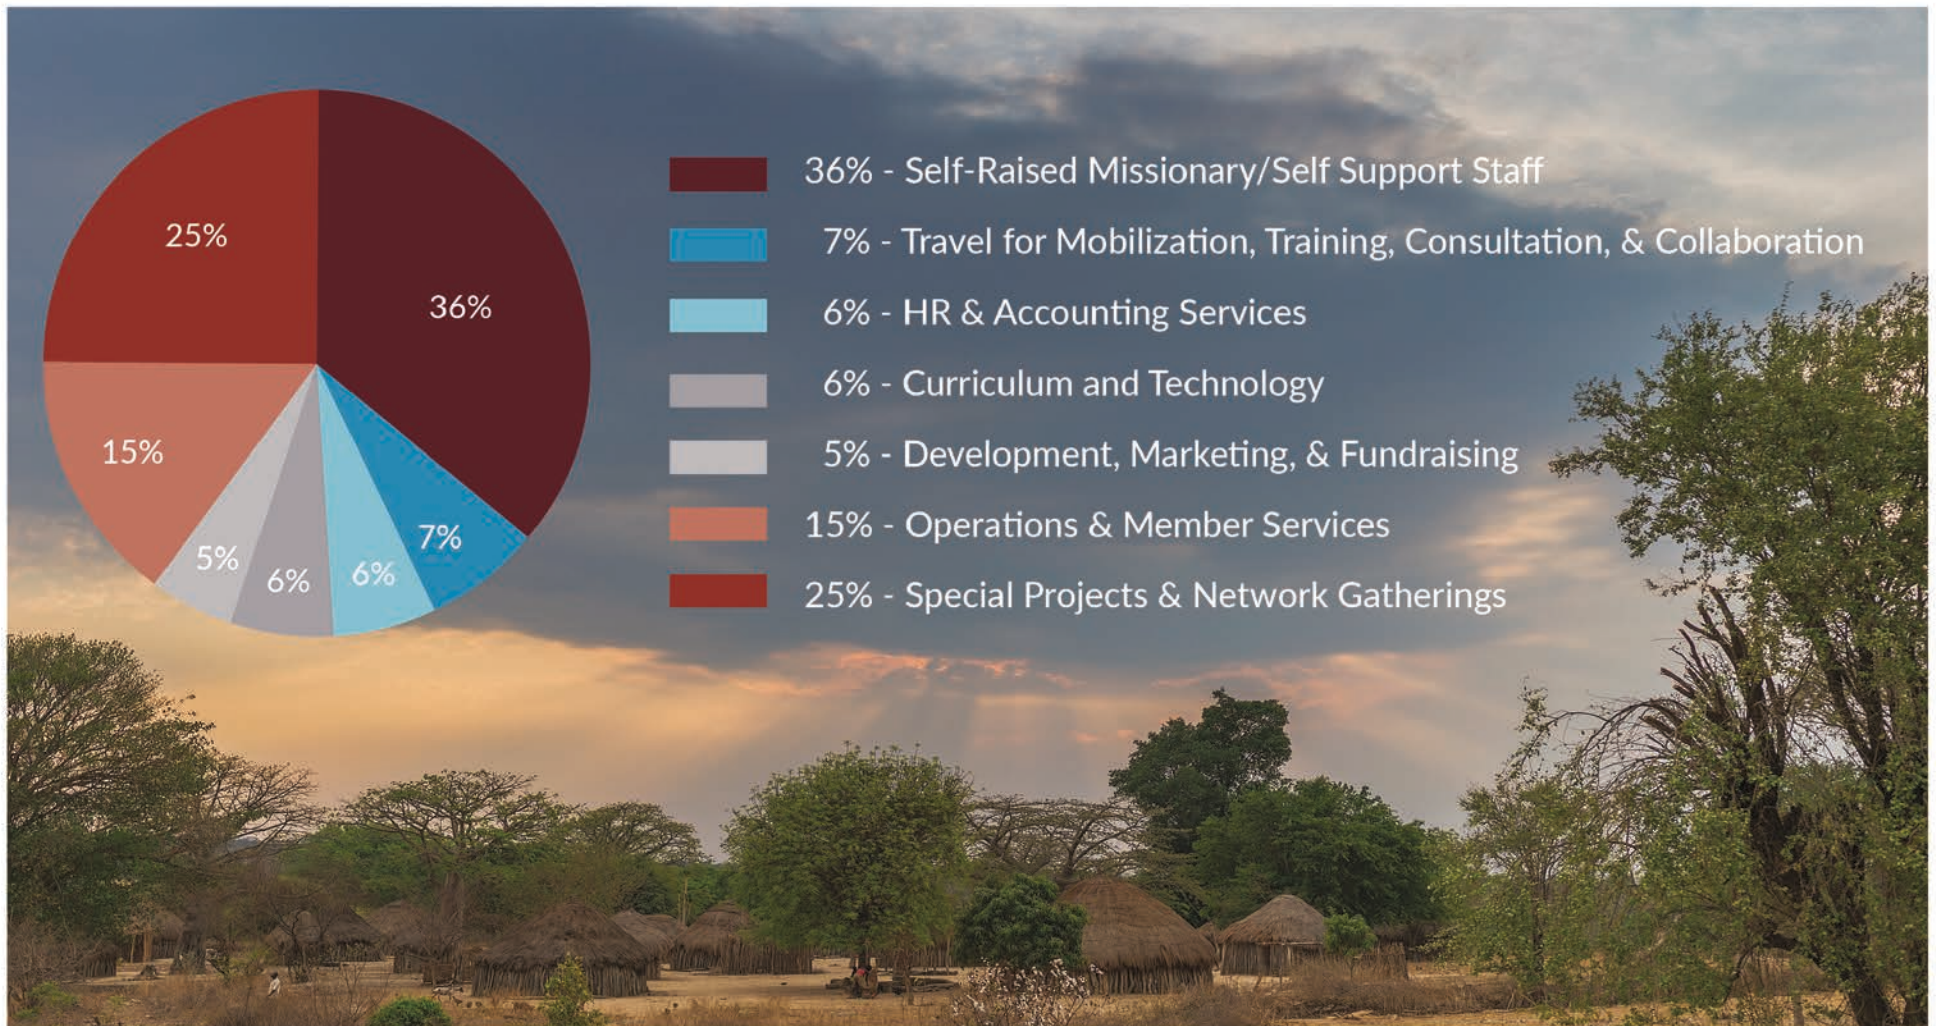

- Mapping CHE work globally and connecting workers worldwide
- Developing and distributing the most comprehensive library of lesson plans for transformational development available to the church - in multiple languages
- Mobilizing and equipping evangelicals for wholistic ministries through the International Wholistic Missions Conference
- Maintaining the Network website as a connecting point and resource destination for workers around the world
- Providing the entire network with technology and communication tools for collaboration including secure file sharing and video conferencing
- Catalyzing prayer on behalf of the movement
- Member care including onboarding of new members and organizations
- Administrative support for the Representative Council

Budget Allocations 2020

CONTRIBUTIONS TO GCN FACILITATE COLLABORATION,
STRENGTHEN INDIVIDUAL MINISTRIES AND EXPAND THE MOVEMENT

Stories of Transformation

ARGENTINA

In Argentina, CHE coordinators **Marcelo and Silvia Lopez** have a vision to educate their community regarding the need of the to serve those with disability. In December, they held a campaign in their community based on Luke 14, which was called "A Place at the Table".

The first Sunday of December was set aside as a day of prayer for those in their community who have disability. They continue to make inroads in their community to give those with disability "A Place at the Table".

KENYA

CHE trainer, **Jo Kijabe**, recently wrote of the impact the Coronavirus has had upon the youth of Kenya in unexpected ways. She explained that during this time of COVID-19, schools were closed which led to an increase of teenage pregnancies in the country. Praise God for the news that in the communities where CHE training had taken place, no teenage pregnancies were found!

There are now secondary schools asking for CHE trainers to come and teach. Jo shares her heart when she writes, "When a girl is dropped from school it's like life for them ends. I feel we should pursue them and give them hope, as we mentor other girls to not go the wrong way. Only Jesus can save and guide them."

LATIN AMERICA

The Global CHE Network Coordinator, Terry Dalrymple, was invited to help coordinate an effort initiated by ConEL, an association of eight major denominations in Latin America representing 500,000 churches. The leaders of the movement were to gather at the International Wholistic Missions Conference in Phoenix to kick things off. The conference was cancelled because of the COVID-19 lockdown and the anticipated launch into Latin America along with it.

Even with these obstacles, **Dr. Hugo Gomez and Ricardo Luna** decided to move forward with online trainings. They set a goal for 50,000 transformational community development centers in churches throughout Latin America by 2033. Invitations were sent to denominational leaders in three countries for online training of key leaders. They expected 40 people, but 220 people showed up for the online meeting from six different countries! They broke the group into smaller groups and over the course of the next month provided training to all 220 leaders!

INDONESIA

Terry Dalrymple was also scheduled to go to Indonesia and work with 40 mega-churches on a project bringing transformation to vulnerable populations in 12 different provinces. Due to COVID-19, this trip had to be cancelled.

The church leaders were laser-focused on working in these villages and asked if there was anyone who might be recommended to provide training of trainers for the launch of their movement. Terry connected them with someone he had trained in 1998 and the **Indonesian team** went to work.

In less than six months, they trained the first 100 trainers, opened work in 36 villages, set up regional councils in all 12 provinces and a national council in the capital! They not only were able to accomplish this amazing endeavor, but they also set a goal of transforming 7,000 villages by 2025. The churches are funding the movement themselves with no help from the outside and engaging their church members through prayer and intercession!

Stories of Transformation *(continued)*

EASTERN EUROPE

Agron Aga, the director for CHE in the Balkans, reports that CHE teams have caught the vision of the Million Village Challenge. Even in these days of lockdown, CHE trainers are seeking to open ministry into new countries.

Agron writes, "It's been a very intense period for me. The CHE ministry is spreading out in the Balkans, Central Europe and Eastern Europe. CHE leaders are organized in several working groups to respond to the dynamics of the ministry in our region. CHE work is our responsibility and as a network we are to mentor and support CHE teams and build an effective ministry throughout the region."

UGANDA/SOUTH SUDAN

CHE trainer, **Geoffrey Adroa**, has not allowed the COVID-19 to hinder ministry to the poor in communities of Arua, Uganda and beyond. CHE teams set up portable hand washing stations in the markets and started online COVID-19 training with great speed.

CHEs reaching out to those in the refugee camp of BIDI-BIDI started a campaign which they called, "Plant a Tree for Peace in South Sudan".

Geoffrey explained, "Plant a Tree For Peace" is a project we launched to improve and replenish the environment where refugees live due to clearing for settlement, firewood and housing. Deforestation takes place as firewood is known to be 90% of the energy source. CHEs and communities plant tree species of their choice as they own them. They have planted mangos, teak, grevillea and some recommended trees for firewood."

Beyond Poverty

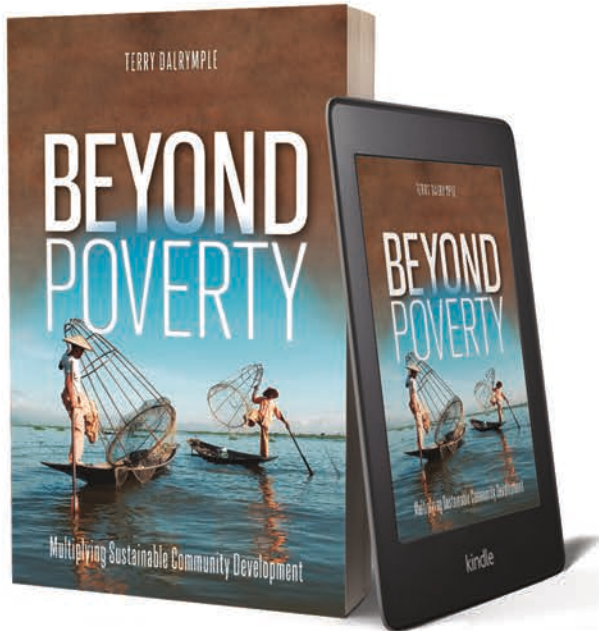

Multiplying Sustainable Community Development

by Terry Dalrymple

In *Beyond Poverty*, Terry Dalrymple calls us to move beyond sustainable projects in a single village to transformational movements that multiply change from village to village and sweep the countryside. Through multiple case studies based on the actual experiences of more than 900 organizations in 135 different countries, this book tells the story of a large and growing network of ministries around the world using the strategy of Community Health Evangelism to change the life of the poor forever. The principles in this book are not just a theory, but proven strategy.

This book is your opportunity to help the Church advance a global movement that will answer the cry of the poor in a million villages.

Order your book today at
missionbooks.org

"Beyond Poverty gives a blueprint for a true integral missional approach that leads to sustainable community and church owned development. Terry Dalrymple achieves these outcomes through an unconditional commitment to follow Jesus, seamlessly integrating evangelism and compassion. This book can become a new standard reference for Christian professionals in the global development arena. Terry's deep experience as practitioner and master trainer in gospel driven community development enriches the work throughout. This is a must read for anyone with a serious interest in the growing role of development in the changing missiological landscape."

GIL H ODENDAAL PH.D., SENIOR VICE PRESIDENT, INTEGRAL MISSION
WORLD RELIEF

"In *Beyond Poverty*, Terry has beautifully laid out the Biblical basis for wholistic ministry and foundational principles for transformational movements. The inspiring stories of movements that he shares have been catalyzed by ordinary people with an extraordinary passion to be obedient to the cause of Christ. The book is easy to read, very informational and hopefully the reader will be inspired to become a part of this movement that will ultimately bring new life to a million villages."

DR. RAVI I. JAYAKARAN, PRESIDENT/CEO, MEDICAL AMBASSADORS INTERNATIONAL
CATALYST – INTEGRAL MISSION, THE LAUSANNE MOVEMENT

"Terry introduced me to wholistic mission work years ago and mentored me through the transition from an evangelistic relief model of our church to a wholistic evangelism model. I cannot even begin to tell you the transformational impact his teaching has had on our global mission work and our church. And now it's documented in his book. This book captures a lifetime of one man's obedience to God as he presents what he has learned. *Beyond Poverty* is a playbook for those of us who desire is to restore dignity and honor to those who are struggling and giving them hope. Truly a masterpiece!"

LARRIE FRALEY, FOUNDING MEMBER AND LEAD GLOBAL OUTREACH PASTOR
CHRIST'S CHURCH OF THE VALLEY, PEORIA, ARIZONA
